## EXTENDED CARE

Extended Care is a service offered by North Hills Christian School that allows parents to extend the care of their child before and after school. It is designed as a safe and secure program for children in elementary through middle school grades.

We are currently working on enhancing this program to include an outside playtime when possible, an indoor playtime, and a study/tutor time. Special extra activities may be offered periodically at minimal or no additional cost. We will give you further information when plans are finalized.
